

Question and Answer Period

Consultancy to Conduct a Comprehensive Watershed Diagnostic Assessment in Ravine du Sud, Torbeck and Acul Rivers in the Les Cayes Bassin 2024-001-PPR-Sud

- 1. Q: Can a person can have at the same time two roles within the requested experts. For example, if the same CV can be used for the data analysis expert and for the GIS mapping expert or if they must be different people.**

A: Yes, one person can have the same two roles within the requested experts.

- 2. Q: Despite our big interest in this opportunity, we find that the submission deadline on 9th January is a little bit short in order to mobilize our team, since all our staff will be on end of year holidays from 23rd December up to 2nd January. This is a critical factor for us in order to participate in the tender process and submit a qualitative technical and financial proposal. Therefore, we would like to kindly ask for a submission deadline extension of one week if possible.**

A: Thank you for your request, we have extended the deadline for submissions until January 15, 2025. Please see the updated RFP tender document.
