COMM-UNITY RESILIENCE AND TRANSFORMATION (CREATE) PROJECT
JAMAICA**

1. BACKGROUND AND JUSTIFICATION:

The Pan American Development Foundation (PADF) believes in creating a hemisphere of opportunity, for all. We work across Latin America and the Caribbean to make our region stronger, healthier, peaceful, just, inclusive, resilient, and sustainable for current and future generations. For more than 60 years, we have served the most vulnerable communities, investing resources across the hemisphere. We partner with civil society, governments, and the private sector and empower them to achieve good for the region.

PADF has received funding from the Bureau of International Narcotics and Law Enforcement Affairs (INL) to implement the "Comm-Unity Resilience and Transformation" CREATE Project. The project will be implemented in five hotspot communities: Parade Gardens, Kingston, Majesty Gardens, St. Andrew, Gregory Park, St. Catherine, Norwood, St. James, and Grange Hill, Westmoreland. The initiative, grounded in the principles of Crime Prevention Through Environmental Design (CPTED), aims to counter gang recruitment and youth crime and violence using an evidence-based, multidimensional approach and will comprehensively address the complex needs of at-risk youth, equipping them with the skills, resources, and support necessary to reduce their risks and vulnerabilities to criminal activities.

2. OBJECTIVES:

PADF is seeking the services of two Counselling Psychologists to provide critical support to at-risk youth, aged 15-24 years, who are beneficiaries of The CREATE Project. Upon referrals from Case Managers, the psychologists will: (i) conduct psychological evaluations, (ii) develop individualized treatment plans for each youth, (iii) make referrals to external healthcare providers as necessary, and (iv) provide family, group and individual counselling sessions based on the findings of evaluations. This consultancy directly responds to Activity 2.4 of the project: "Improve coordination of stakeholders within the targeted communities to expand access and referrals to services required by at-risk youth."

3. RESPONSIBILITIES OF THE CONSULTANT:

The Psychologists will be responsible for providing evidence-based psychological interventions and therapeutic support according to the Project objectives and the mental health needs of each youth. Specific duties will include:

- Conduct comprehensive psychological assessments and evaluations of at-risk youth to identify mental health needs, trauma history, and behavioral concerns.
- Provide individual psychotherapy and counseling services to youth using evidence-based therapeutic approaches appropriate for trauma, behavioral issues, and risk reduction.

- Facilitate group therapy sessions focusing on topics such as anger management, stress management, emotional regulation, and substance abuse prevention.
- Collaborate with Case Management Officers to develop integrated individualized action/case plans that address both psychological and social service needs.
- Provide psychological consultation and guidance to case management staff on mental health interventions and treatment planning.
- Deliver family therapy and psychoeducational sessions to support family systems and improve family functioning.
- Conduct crisis intervention and risk assessment for youth experiencing acute psychological distress or suicidal ideation.
- Maintain detailed, confidential psychological records and treatment documentation in compliance with professional and ethical standards.
- Collaborate with external mental health providers, medical professionals, and psychiatric services for referrals and coordinated care.
- Monitor and evaluate the effectiveness of psychological interventions and adjust treatment approaches as needed.
- Participate in monthly project update meetings.

4. CONTRACTUAL MECHANISM: FIXED PRICE
