ABOUT THE PROJECT

Through this initiative, the Pan American Development Foundation (PADF) partners with law enforcement agencies across seven Caribbean Basin Security Initiative (CBSI) countries to enhance operational readiness and capabilities. PADF focuses on promoting organizational integrity and strengthening the social and analytical skills of personnel. Leveraging strong relationships with regional stakeholders and a global network of expert consultants, PADF identifies priority needs within each police agency, providing targeted capacity-building support. This includes developing and refining organizational protocols, delivering specialized training programs, and implementing technological solutions to modernize internal systems.

By working closely with host governments, PADF ensures the project's success and the sustainability of its outcomes, benefiting future generations of law enforcement professionals.
